

Vehicle designed to capture moving scenes in locations where we need an atmosphere of quiet and respectful work environment.

It is ideal for working indoors (recording studios, halls ...) and in public areas where it is prohibited to put a vehicle with a combustion engine.

Both the front and back, is made with aluminum platforms (TT6 7075) to work with 48.3 mm tubular structure.

Very handy for various uses: from working with steadicam operators, as well as to work freehand with various remote heads.

SPECS

Max Speed	25 km/h (15.53 mph)
Total Car Length	2.25 m (7.38 ft)
Total Car Width	1.10 m (3.61 ft)
Total Car Height	1.15 m (3.77 ft)
