

As an electric vehicle, the EZ Raider is almost totally silent. The vehicle is steered via handlebars like a jetski. The electric ATV EZ Raider can be operated over inhospitable terrains, thanks to its unique, field proven characteristics:

- Innovative, patented suspension system which gives the EZ Raider unrivaled maneuverability
- Compact and lightweight design
- Powerful electric motors with efficient torque ratio
- Precise response to user commands for easy handling
- Unique ground clearance and vehicle angles

EZ Raider - A 4x4 wheel-drive which creates traction and power. Meant for extreme navigation capabilities such as sand dunes, deep mud and snow. One of this vehicle's main advantages is that it can drive slowly and even stop in difficult terrains. Also, this is a vehicle with impressive towing capabilities and stairs climbing. Weighs only 135 kg and contains a 60V/3000W-hr. battery and 4 powerful hub motors of 1200W each. On a single charge, the EZ Raider travel distance is up to 75 km.
