

The Sprinter Dolly has a very low weight. It is possible to switch from track-wheels to air tires, within a few seconds without tools.

Thanks to the versatility of the platform and a very convenient low camera mounting system, an extremely low camera position can be realized.

With its new operating system for the front wheels the dolly can be driven like a car.

SPECS

Max Payload	300 kg (661 lbs)
Dolly Length	1.37 m (4.49 ft)
Dolly Width	0.79 (2.59 ft)
