

If off-road means: fields, beaches, forest, narrow passage, though, muddy and rocky terrain, the RZR has the power and the ground-clearance to get you there.

This compact 4-seater atv vehicle can be equipped with a great variety of camera-(gyro)systems, like Mini Russian Arm, BlackArm and Shockabsorber with Shotover of Flighthead.

All this can be operated from within the vehicle in comfortable bucket seats,

with a wide variety in power supplies, video connections and monitors built in.

The RZR is designed to enable all and more than that in situations where a typical camera vehicle would not come close to.

Ofcourse the RZR can also meet all your demands en wishes in less rural areas.
