

The Shotover U1g is a lightweight, weatherproof, -Gryo stabilized gimbal platform that delivers extreme stability with ultimate functionality. The Shotover G1 gimbal can be mounted on the Flyline, motorcycles, several vehicles, cranes, cables and almost anything that moves.

The gimbal can carry great camera / lens combinations including 6K RED Weapon Dragon, Arri Alexa Mini, Phantom Flex 4K, Panasonic Varicam LT and Sony F55 cameras. Arri, Canon, Fujinon and Angenieux zoom lenses.

The Shotover G1 gimbal provides great stability even at full zoom.
